### **General Self-Help Skip Trace Resources** (These websites can help you locate individuals and businesses.)

www.infospace.com: This website can help you locate both consumers and businesses. It offers a reverse lookup that includes email address and will also allow you to search for businesses near a specific address (to help you find out what is located near one of your customers).

www.knowx.com: Asset searches/background checks on individuals and corporations; finds real estate, aircraft, boats (in almost all states), bankruptcy, liens and lawsuits (need to open an account).

www.searchsystems.net: Public records from their links to free searchable public records databases. Additionally, this site allows you to search by state, U.S. territory and Canadian province, as well as international locations. (There are small costs to obtain records.)

www.google.com: Just type company name between quotation marks (“ ”) and search.
